BIG CYCLONE COMING...

Suppose you knew positively that a "tornado" was coming, and coming hard, on a certain date.

How do you suppose your fences would stand it? Would they "belly out" and fight back—or would they go down like grass beneath the mower?

That depends entirely on the wire and on the construction of the fence. Let us hope that no cyclone will visit us, but every year has plenty of severe fence-tearing weather.

American and Ellwood Fences are made of selected, tested metals that come from the manufacturer's own mines, drawn and tempered by a special process—the product of the most skilled workmen in the greatest steel producing and wire mills in the world. They're the strongest, springiest, most durable.

Whether you want a square, or a diamond mesh, buy one of these two great fences—and be protected against every emergency.

Show in many weights and sizes for every use.

Stolen or Strayed; Lost or Misled.

The following is a copy of a unique notice affixed to the church door at Whitechapel, London:

"Missing, Sunday last, some families from church."

"Stolen, several hours from the Lord's day, by a number of people of different ages, dressed in their Sunday clothes."

"Strayed, half a score of lambs, believed to have gone in the direction of 'No Sunday School'."

"Misled, a quantity of silver and copper coins on the counter of a public house, the owner being in a state of great excitement at the time."

"Wanted, several young people. When last seen were walking in pairs up Sabbath Breaker's Lane, which leads to the City of No God."

"Lost, a lad carefully reared, not long from home, and for a time very promising. Supposed to have gone with one or two other companions to Prodigal Town, Husk Lane."

"Any person assisting in the recovery of the above shall be no wise lose his reward."

Feathers on Her Shoes.

The lady of fashion will shun plume on her hat this year, but will be allowed to display a radiance of feathers on her shoes, according to advices from Paris, France. The very latest note of elegance in footwear is declared to be shoe covered with birds' plumage of the most elegant hues of feathers. The price of the new shoes will, of course, be enormous.

How Farmers Lose.  
Here is a suggestion to farmers worthy of consideration at this time. The grains from twelve ears of corn will plant an acre. If one of these twelve ears is not fertile, there will be a loss of three to five bushels in the yield. As most corn growers select their seed in a haphazard way, it is a fair assertion to say that the farmers of this country lose about \$10,000.00 a year by selecting poor seed corn.

The Opening Guns.

The first real test of strength among the candidates for the Presidency occurs February 22. On that day the Democrats of Oklahoma will hold their convention and decide what candidate the Oklahoma delegates will vote for in the National Convention. Oklahoma's choice probably lies among Folk, Clark and Wilson. The second test comes on March 5, on which day North Dakota will hold its Presidential primary.

TURNPIKE WORK.

By Order of the Fiscal Court.

Some Swell Near-Jobs.

Sidney R. Francis, 23 years old, son of David R. Francis, formerly of this city, but now a St. Louis, Mo., millionaire, and a former Governor of that State, is in Los Angeles, Cal., with his pockets stuffed full of letters of credit and notes of introduction to American Consuls in almost every part of the world. "I am going to work my way around the world," declared the young man. "I am on my way to San Francisco, Cal., now to get a job on a trans-Pacific steamer, preferably a freighter, to work my way to the Orient." Young Francis was graduated from Yale last spring. He returned to St. Louis, Mo., intending to take up his father's business, joining the firm of Francis Brothers & Co., brokers, but soon discovered that his education had not been properly completed. So he told his father he wanted to "beat it" for a couple of years over the face of the globe.

Investigate the Market.

A correspondent of the Mt. Sterling Gazette says: "Every farmer should investigate the tobacco market previous to taking off his own crop, for the simple reason that, after he has taken it off the stocks he will take from 3c to 5c per pound less than he would have otherwise, and the American Tobacco Company knows it. Growers seldom ever bring their crop back home."

JUDGE GARY, head of the Steel Trust, attended a banquet in New York. The food was good, the lights were bright, the silver shimmered, the wine sparkled, the ciders added a final completeness to the happiness of all present. When it came Judge Gary's turn to speak, his mind was saturated with benevolence, and his thoughts turned to the welfare of the republic and the sufferings of working men. Listen to him: "Things are being said nowadays that are closely akin to the things that were said just prior to the French revolution. Unless the great corporations, capitalists and men of large wealth and power take a leading part in the amelioration of conditions, there will be changes made later by mob." The newspapers next day told the story of the banquet and of Judge Gary's speech, and the same newspapers chronicled the testimony of witnesses before the Stanley Committee. These witnesses told how the Steel Trust forces men to work twelve hours a day, seven days a week for wages which compel them to live like swine—a condition which Judge Gary could eliminate with a few strokes of his pen. The banquet hall is dark. The diners are gone. The tables are stripped of their linen and viands, and somewhere in that deserted room, shrunken so small that the servants failed to see it when they swept out the crumbs, is Judge Gary's beautiful altruism.

Judge once in his life Theodore Roosevelt expressed an opinion on the tariff. That is, he almost expressed an opinion. In one of his messages he wrote this sentence: "In a later message I shall discuss the tariff." A preliminary draft of this message fell into the hands of Senators Aldrich and Lodge and Speaker Cannon. Immediately they rushed to the White House. Presto! When the message finally was submitted to Congress, it contained no reference to the tariff. Aside from that, no living man can point to a written or a spoken opinion that Mr. Roosevelt ever expressed on the tariff question.

A BILL is pending in the State Legislature to make the minimum common school term seven months instead of six. This is a move in the right direction. Kentucky seems to be waking up in matters pertaining to a better and more extended common school education. The country schools are growing in usefulness and importance. Money spent in this way will bring a good return.

The Girl Who Disappears, and Why?

At Normal Chapel, Thursday evening, Feb. 29 at 7:30 p.m. by David M. Grant, Admission free—by complimentary ticket only. Tickets may be obtained of any minister or at this office. Mr. Grant has given much research and careful study of the existing conditions in our large cities and towns and tells in an impressive manner what he knows. Don't fail to hear him. Lend your presence and personal influence to a good work.

Cattle Eat Tobacco.

Several head of cattle belonging to Square John Trimble got into his tobacco barn recently and ate a large quantity of the weed.

As a result three of them died and several others are in a very dangerous condition.—Mt. Sterling Advocate.

MADISON TOBACCO WAREHOUSE CO., L. & A. DEPOT.

State Museum Proposed.

There is considerable interest among the members of the Legislature to convert the old Statehouse into a State museum and a bill providing for such use of the historic old structure is now pending in the General Assembly, although it is quite doubtful if anything will come of it at this session on account of the financial straits of the Old Commonwealth. The old Statehouse is considered by critics to be one of the best proportioned specimens of its style of architecture extant and the stone spiral staircase leading from the rotunda is regarded as a marvel. The old pile around which clusters so much of historic interest would make an ideal place for the location of a State museum.

Making Artificial Sponges.

An artificial sponge, the outcome of German ingenuity, is now to be had.

The process of making it consists principally in the action of zinc chloride on pure cellulose.

This results in a porous, viscous mass, which is mixed with coarsely granulated rock salt.

Placed in a press mold armed with pins the mass is pierced through and through until it appears traversed by a multitude of tiny canals, like the pores of a natural sponge.

"He waited a moment, and then, leaning over the pulpit and looking at the aman corner, he said, 'And could you do that too, Mr. Smith?'

"'Of course, I could,' Mr. Smith replied.

"And how would you do it?" said the preacher.

"Why, what was left over from last Sunday, of course," said Mr. Smith.

**CANARY AN ARDENT MOTORIST**

Atlanta Man Has a Bird That Has Traveled More than 20,000 Miles in Automobile.

Many dogs and cats regularly receive their strings in motor cars and have shown distinct preference for these rides, but a canary bird is the latest addition to the ranks of motorists.

Dick Levi of Atlanta, Ga., is the particular canary that has the distinction of being the first in this field and he is said to have traveled over twenty thousand miles in his automobile. Dick's first ride in an automobile was in a Premier 24, bought by Mr. Levi in Philadelphia in 1906. Dick was one year old at that time, and with Mr. and Mrs. Levi his mileage around Philadelphia, including several trips to Boston, was ten thousand miles.

The three motorists made a trip of twelve hundred miles from Boston to Atlanta in October, 1906, being the first to travel that route in a motor car.

They were by way of Baltimore and Philadelphia over the mountains, along the Southern railway. On several occasions they were out all night in their car, sleeping by the roadside. Mr. Levi says they spent three weeks in a constant rain during this trip, all the time running on low gear. Mr. Levi is almost always accompanied by Mrs. Levi, who is also an expert at the wheel of a car, and Dick is always the third member of the party. He has become so enamored of traveling in his car that he would do himself injury. Motoring apparently agrees with him, as he is extremely hardy and a great singer. Besides his motoring he has made three trips to the Pacific coast and returned by train. Mr. and Mrs. Levi would part with him under no conditions, an offer of \$250 having been refused, it is said.

When the Ill-Fitting Stocking Pleads Guilty  
Give the devil his due!  
Bad shoes are not always to blame for bad feet. Not all the corns and bunions, tired and "drawn" feet, and ingrown nails are caused by bad shoes. The ill-fitting stocking must plead guilty to much foot murder.  
A stocking too tight in the foot may choke the circulation, bind the toes together and bend them under. A stocking too thick in the foot may cause the toe and heel especially to suffer. Stockings that would not rub if the stocking were fitted right. A damp, soaking moist stocking irritates the sole of the foot. Above all, if you live in the stocking it is poisonous, or not fast color, all feet troubles are made worse. One reason why we call our stockings  
**Wonderful**  
is their wonderful comfort, due to their being knitted on machines that respect the shape of the human foot. At the toe and heel especially, care for correct shape—not too tight nor too loose—just "cozy and comfortable." Made of several thicknesses of cotton to your favorite shoe. As for the dye, it is not only pure and non-poisonous, but "everlasting."

State Tobacco Record Broken

The highest prices for the year were  
at the Madison Tobacco Warehouse.

Monday. One basket of tobacco  
brought \$1.10 per hundred

lbs. A total of 115,000 pounds was  
during the day and averaged \$1.25 per  
lb., bringing a total of \$16,813.

This is evidently the highest average  
in the State for the present

year. Several baskets of the crop  
of Twitt & Layton, of Garrard county,  
in \$10 per hundred pounds at the  
earliest Tobacco Warehouse in this

Friday. The entire crop of 4,000  
is averaged \$17.86. At the Madiso-

n Tobacco Warehouse several baskets  
in \$10 per hundred. Farmers of

and adjoining counties are

pleased with the prices received  
and many crops will be put

in market in this city that formerly  
belonged to other counties.

House Destroyed by Fire.  
A tenant house on the farm of Mr.  
Dick Igo was destroyed by fire Sunday  
night. It is not known how the con-  
flagration originated. The building  
was soon reduced to ashes and was a  
total loss.

Eastern vs. Flemingsburg.

The Normal School boys won a de-  
cisive victory over Flemingsburg High  
School Saturday night by a score of 35  
to 13.

The game was fast and furious,  
but the Easterners were faster and  
showed better team work which gave  
them a decided advantage. In the first  
half, Eddie Cobb starred in the  
scoring line, getting four field goals.

Grant at center never failed to get the  
jump and Akers and Reid shone in pass  
work. Welch's man did not get a single  
goal, the half, ending with a score of 14  
to 8 in favor of Eastern.

In the second half, Flemingsburg took a  
brace and played harder but scored only two field  
goals. Brodaddus did not allow his man  
a single one. Spears Turley led in the  
scoring, getting five baskets. Simmons  
and Hamlin were a little off form getting  
three and two respectively.

The Flemingsburg boys played a good hard  
game but were simply outclassed. Their  
record so far is good, having won five  
high school games and one from Lane  
Seminary at Cincinnati.

The final score was 35 to 13. Officials,  
Umpire alternating were Coach  
Wilson and Coach Caywood, of Flem-  
ingsburg.

## COVINGTON and BANKS

Fine Average.

Mr. Shearer sold Monday his crop of  
tobacco, composing 4,955 pounds, at an  
average of \$10.83. This is a fine aver-  
age and one that is not likely to be ex-  
ceeded by many tobacco raisers in this  
or adjoining counties. The above record  
represents the exception of two. This is a splendid record, and  
considering that Mr. Breck has won  
three other prizes in less than a year,  
places him in an enviable position as an  
insurance man.

Mr. Bennett Appeals For  
Votes For Women.

An appeal for votes for women was  
made Friday to the Senate Woman Suffrage  
Committee by Mrs. James Bennett of this  
city. Chairman of the Congressional  
Committee of the Equal Rights Association of Kentucky. She  
urged a constitutional amendment.

city, who is a brakeman on the L. & N.  
Railroad, suffered a broken hand Wed-  
nesday morning by a cog slipping after  
the brakes had been applied. The in-  
jured man did not allow his man a

scoring, getting five baskets. Simmons

Mrs. Wood's Stomach To Be  
Analysed.

The Lexington Herald says: "At last  
the contents of the stomach of Mrs.  
Madie Lee Wool, who died last Sunday,  
supposedly from gas asphyxiation, at her  
home 228 Kentucky avenue, are to undergo  
chemical analysis. Unable to  
find a local chemist, who would undertake  
the analysis, Mr. Stanley Brodaddus,  
member of the firm of W. R. Brodaddus  
& Son, undertakers, in whose charge the  
analysis was left, yesterday took the  
stomach to Winchester, turning it over  
to Dr. J. H. Martin of that place, for  
analysis. Dr. Martin, who is a member of  
the Martin Drug Company of Win-  
chester, agreed to make the chemical  
analysis of the contents of the stomach,  
and said he probably would complete  
the undertaking within a week or ten days."

Base Ball Meeting.

Richmond fans responded to the call  
issued for a meeting on last Thursday  
evening, at which time the question of  
retaining a team in this city during the  
coming season was discussed. Much  
enthusiasm prevailed and Mr. Ed. Blan-  
ton was unanimously chosen as presi-  
dent for the coming season. He will be  
assisted by Messrs. R. C. Stockton,  
M. C. Kellogg and W. C. Bennett, and these  
gentlemen have issued the following  
appeal:

"GENTLEMEN:—Enclosed herewith we  
beg to hand you blanks upon which sub-  
scriptions are to be made. It is agreed  
by the undersigned at a meeting held  
February 15th, that they would use  
their best efforts to conduct a baseball  
club during the coming season, if an  
amount sufficient, in their opinion, was  
raised by others. After a careful study of  
the whole matter we have come to the  
conclusion that it is absolutely  
necessary to secure \$2,000 to finance a  
baseball team for the season. If the  
citizens of Madison county wish to con-  
tinue a team in the Bluegrass League,  
we are willing to do the best we can and  
we ask them to contribute liberally. It  
was with this distinct understanding that  
we agreed to give our time as directors to  
the project. This is the most liberal  
agreement that we are willing to serve  
under, and we do this only through our  
interest in baseball. If any others will  
take up our plan we will gladly step down,  
and in addition contribute liberally."

"Yours truly,

"W. E. BLANTON,

"R. C. STOCKTON,

"M. C. KELLOGG,

"W. C. BENNETT."

Two New Cars.

Mr. D. H. Breck has been awarded  
third prize by the Ohio and Indiana  
Live Stock Insurance Co. as a reward  
for having written more insurance for the  
above company than any of the many  
representatives with the exception of  
two. This is a splendid record, and  
considering that Mr. Breck has won  
three other prizes in less than a year,  
places him in an enviable position as an  
insurance man.

Mr. Park Brought Home.

Mr. Robert Park, son of Judge W. W.  
Shackelford, was purchased new auto-  
mobiles, the former having bought a  
Cartercar, while Judge Shackelford will  
enjoy a Flanders. Judge Shackelford  
has received his machine and is now  
awaiting spring weather when he will  
enjoy spinning over the pikes of  
Madison and adjoining counties. Mr.  
Luxon will receive his car first of March.

Fingers Crushed.

Bud Burgess at the Madison Tobacco  
Warehouse met with an accident Saturday,  
having one hand badly mashed,  
requiring two fingers to be amputated.

## "Cardui Cured Me"

For nearly ten years, at different times, Mrs. Mary Jinks of Treadway, Tenn., suffered with womanly troubles. She says: "At last, I took down and thought I would die. I could not sleep. I couldn't eat. I had pains all over. The doctors gave me up. I read that Cardui had helped so many, and I began to take it, and it cured me. Cardui saved my life! Now, I can do anything."

## TAKE CARDUI The Woman's Tonic

Prepared from perfectly harmless, vegetable ingredients, Cardui is the best remedy for you to use, as it can do you nothing but good. It contains no dangerous drugs. It has no bad after-effects. Avoid taking cold if your kidneys are sensitive. Cold congests the kidneys, throws too much water upon them, and weakens their action. Serious kidney trouble and even Bright's disease may result. Strengthen your kidneys, get rid of the pain and soreness, build them up by the timely use of Foley's Kidney Pills. They will cure any case of kidney or bladder trouble not beyond the reach of medicine. No medicin can do more.

### Fond of Honey.

In an exchange between Wilson, of New Jersey, tells of a commercial traveler who came regularly to Princeton, N. J., the Governor's home. "This man," says the Governor, "was passionately fond of honey, and the proprietor of the hotel at which he stopped always had some on hand for him. One day the drummer took his wife along, and, as he approached Princeton, mentioned to her that he was getting to a place where he could have some particularly fine honey. When their dinner was served, however, no honey appeared. 'Where is my honey?' he asked the bead black-haired one? asked the waiter, smiling. 'Oh, she doesn't work here any more.'
